WILSON REMAINS PERFECTLY CALM

President Confident Mexican Situation Will Clear.

ISSUES PACIFIC STATEMENT

State Department Asserts That Intentions of United States in Sending John Lind to Southern Republic Have Been Misrepresented and President Huerta Is Acting Upon These Misrepresentations.

Washington, Aug. 9.—Calm in the midst of alarm about the relations between the United States and the republic of Mexico, President Wilson apparently retains his confidence, in the face of discouraging conditions, that the grave issues will be settled without bloodshed.

Meanwhile the state department issued a pacific statement. This reads that the intentions of the United States in sending John Lind have been misrepresented and President Huerta is acting upon these misrepresentations.

Until Lind has reached the embassy at Mexico City, to which he is to act as adviser, the president and the state department decline to make an issue over him with Huerta.

After that they appear confident the issue will be one that will be settled peaceably and satisfactorily for all parties concerned.

The New Hampshire, bearing Mr. Lind, has apparently been slowed down so that it will not reach Vera Cruz until afternoon.

Cannot Guarantee Lind's Safety.

Also the military governor of Mexico City has let it be known that he cannot guarantee Lind's safety in the capital and there are fears of anti-American riots, manufactured by Huerta at Vera Cruz, which will necessitate that Mr. Lind, and particularly his wife, remain aboard the battleship for several days after she arrives.

Unless the president's attitude adopted toward his closest friends and advisers does not represent his real feelings, however, it is probable the only actual fear of the administration is that some overt act of violence, done on the part of Huerta or in the Mexican capital, will throw reason and pacific plan overboard.

The calm of the president has inspired Washington with the belief that he has something up his sleeve. It is evident Mr. Wilson is confident that when his plan is definitely proposed it will dismiss all present danger in the Mexican situation.

The plan has been ravenously guessed at. No one really knows what it is outside the confidential circle.

The most reasonable presumptions are that it contemplates the declaration of an armistice between Huerta and his enemies until a peaceful election in October shall decide the issue and restore stable conditions in Mexico.

May Ask Huerta to Resign.

It is suggested that the United States, in order to gain the consent of Huerta to such a proposal, may advise that he vacate the provisional presidency for the time, giving him opportunity to stand again in the election if he chooses.

Another guess, much heard in diplomatic circles, is that this government, after assuming the attitude of mediation, will call on other powers, Great Britain, France and Germany, to lend their moral support to such a peace program in Mexico.

It may be, say those who are guessing, these powers, through their representatives in Washington, have already been advised of the plan and have decided to back it by "advising" Huerta to accept it.

Such a course would leave the Mexican provisional government in a tight place. It would simply be forced to do what the great powers "suggested" or be wiped out of existence.

The president's attitude has given Washington a hope that he has evolved some solution of the Mexican situation. He has asked congress to leave the matter to him and, although congress is restive about it, it is responding rather well.

The great danger is—and all the students of the problem here are agreed on it—that something may happen in Mexico, before the plan of peace can be proposed, that will force us to take arms.

Knowing all these things better than any other individual in the United States, yet confident that, with good luck, he has found the way out, the president is asking all who can to share his view.

AUTOMOBILE BANDIT KILLED

Shot After Holding Up Oklahoma Roadhouse.

Tulsa, Okla., Aug. 9.—A lone auto bandit, unmasked, who held up the Taneha roadhouse, ten miles west of here, about midnight, died later of wounds he received in a fight with inmates of the place.

The battle took place as he was attempting to regain the car to make his escape with the money. He had secured \$60. Papers in his pocket bore the name of Charles W. Oliver, Houston, Tex.

CLAIMS SULZER PLAYED MARKET

Serious Accusations Against New York Governor.

INVESTED CAMPAIGN MONEY

Witness Tells Frawley Committee State Executive Was Nearly Fifty Thousand Dollars in Debt When Nominated and Used Campaign Contributions to Make Additional Purchases of Stock.

New York, Aug. 8.—Governor William Sulzer of New York was nearly \$50,000 in debt as the result of stock market speculations at the time of his nomination and used contributions to his campaign fund to make additional purchases of stock while this debt was hanging over him, according to testimony adduced at the hearings of the Frawley committee of the legislature.

The evidence brought to light is sufficient, according to Senator Frawley, chairman of the committee, to warrant proceedings to impeach the governor for violation of the corrupt practices act.

The committee closed its hearings here to consider what action should be taken. A decision is expected by Monday.

The governor, according to the evidence, had dealings with three different stock exchange firms and was saved from being sold out by one firm by L. M. Josephthal, a Wall street banker, and a member of the governor's staff as naval reserve aide.

Josephthal, it was brought out, paid a debit balance of \$26,739 still standing against the account on July 15 last. This was after the governor had received repeated calls for more margin.

Some Cash Transactions.

The governor's transactions with the other firms were for cash and it was in connection with one of these that Governor Sulzer, according to the evidence, used campaign contributions.

Arranged chronologically the testimony appeared to show that on Jan. 1, 1912, there stood on the books of the stock exchange firm of Harris & Fuller an indebtedness of \$48,599 against the purchases by Governor Sulzer of 500 shares of "Big Four," 200 shares of American Smelting and Refining company and 100 shares of Southern Pacific.

This testimony was given by Melville B. Fuller, a member of the firm, who on Wednesday had refused to answer the questions of the committee.

Before testifying his counsel announced that the governor had agreed that "Mr. Fuller's lips should be unsealed."

There were no other purchases of stock recorded on this account, according to the witness, until Dec. 5, 1912, when the governor bought 100 shares of "Big Four," making 600 in all.

On Dec. 11, the firm, according to a letter produced by the witness, made its first call upon the governor for more margin.

The books showed that on Nov. 18 previous the governor paid in \$10,000 against the account and that Dec. 16, apparently in response to the call for margin, he paid in \$6,000 more.

Asserts "Dummy" Was Used.

In October of the same year the evidence indicated that Frederick Colwell, the governor's alleged "dummy," purchased from Boyer, Griswold & Co., 200 shares of "Big Four" railroad stock outright at 60 for \$12,025, the \$25 covering commission.

This was at the height of Mr. Sulzer's campaign for the governorship and transcripts from the firm's books showed the stock, bought on Oct. 16, was paid for partly in checks, at least two of which were identified in the testimony as Sulzer campaign contributions.

During the same month 200 more shares of "Big Four" were delivered to Colwell by Fuller and Gray, another stock exchange firm. This is the firm which had on its books "account No. 500," the identity of which was solved when a clerk, Edith H. E. Sutton, testified that Mr. Gray had told him the account was Governor Sulzer's.

The governor's next transaction in Wall street as developed by the evidence was Jan. 16, 1913, when he deposited a \$5,000 check of A. E. Spriggs against his indebtedness to Harris & Fuller.

On July 9, 1913, he further reduced this indebtedness by selling his 100 shares of Southern Pacific for \$9,248. The governor's account with Harris & Fuller, according to Mr. Fuller, was known to Mr. 63.

The governor, according to Mr. Fuller, ignored the firm's calls for more margin.

Mormons to Quit Mexico.

Cardston, Alberta, Aug. 9.—The Mormon church has decided to abandon its Mexican colonization scheme and devote itself to settlements in Southern Alberta, according to a statement by President Joseph Smith.

SENOR DE LA BARRA.

Former Ambassador Has No Fear of Intervention.

ONLY REMOTE POSSIBILITY

Senor De La Barra Does Not Look for Intervention.

New York, Aug. 9.—That intervention by the United States is scarcely more than a remote possibility, but should there be intervention it would be fraught with the gravest consequences, said Francisco de La Barra, former provisional president of Mexico, upon his arrival here from Mexico.

Senor De la Barra will sail for Paris in a few days to assume his duties as Mexican ambassador to France.

"I am firmly of the belief," said Senor De la Barra, "that the intelligence of the American and Mexican peoples and the spirit of justice and fair play in both countries will prevail in the present situation and that the possibility of anything akin to international complications is most remote."

MAY NOT LET LIND LAND

Mexican Government Seriously Considering Such Action.

City of Mexico, Aug. 9.—No new official declaration affecting the attitude of the government toward John Lind was made, but there is reason to believe that the government is seriously considering going to the length of not permitting Mr. Wilson's representative to land at Vera Cruz.

What promises to be a gigantic demonstration of popular approval of the attitude taken by President Huerta regarding the coming to Mexico of Mr. Lind has been planned by the student element, led by their instructors for Sunday.

The demonstration will not assume an anti-American character, it is stated.

MINNESOTA CITIES WILL SECURE FUNDS

Federal Cash for St. Paul, Minneapolis and Duluth.

Washington, Aug. 9.—Minnesota's share of the \$50,000,000 or more to be apportioned by Secretary McAdoo to the various states to help move the crops will be confined to the banks of St. Paul, Minneapolis and Duluth.

This is the information made public by W. B. Geery of St. Paul, who is one of the four Minnesota financiers attending the conference of Western bankers with Assistant Secretary Williams of the treasury, which closed its meeting.

The exact amount the banks will have is not known and will not be determined until some later time.

Bankers of other sections of the country are still to be heard by the treasury officials next week. It is expected announcement of the amounts to be apportioned and the banks which are to receive them will then be made.

RIOT FOR SUNDAY.

London, Aug. 9.—Sunday afternoon suffragette riots have become as much a feature in London life as the mounting of guards at St. James palace and other set events. Sylvia Pankhurst, the militant suffragette, promises to lead next Sunday's riot. The battle cry will be "On to Downing street," where the residence of Premier Asquith is situated.

SZECHENYI DIVORCE AGAIN

Paris Report Reasserts That Countess Is to Sue.

Paris, Aug. 9.—Reports have been revived that Countess Szechenyi intends to bring suit for divorce despite the emphatic denials on the part of the count and countess that there has not been the slightest semblance of matrimonial trouble.

It is again asserted that the count has lost from \$4,000,000 to \$6,000,000 in financial ventures.

EUROPE'S POWERS ARTFUL DODGERS

Their Reasons For Boycotting Panama Canal Fair.

WILSON IS NOT WORRIED.

President Confident That Exposition Difficulties Will Be Overcome—Every Congressman Has His Own Currency Bill—House Too Large, Management of Affairs Devolves Upon a Few.

By ARTHUR W. DUNN.

Washington, Aug. 9.—[Special.]—When President Taft passed over the foreign complications to his successor he unloaded a great deal upon the incoming administration. Pause for a moment to contemplate the fact that the exposition to celebrate the great world event—the completion of the Panama canal—will not be patronized by world governments because of the hostile feeling which has been engendered.

The Mexican trouble is not our making, but just now it is the most serious of all our foreign complications. The Japan trouble is due to the action of California, but there are other affairs which are due entirely to the attitude of this government.

By abrogating the treaty with Russia we have offended the only real friendly government among the world powers. By violating the canal treaty we have offended Great Britain. By tariff regulations and provisions France and Germany have become offended. Altogether we have a very interesting state of foreign affairs.

Wilson Is Confident.

It seems rather fortunate that none of the troubles seriously worry the president. Mr. Wilson proceeds on the theory that the country has survived greater complications than now face us and that we will be able to worry through them some way, and the republic will survive. And when we come to think of it that is not such a bad way of looking at troubles, especially when they are not of our own making.

Unanimous on Currency.

"We can get a unanimous agreement on the currency bill," remarked Congressman Palmer of Pennsylvania, "if we should allow each man to write his own bill—that is, we might count on each fellow being unanimous for his own bill."

Which is not a very pleasing outlook for the coming Democratic caucus.

Too Many Members.

Most members of the house must realize that there are too many members. "Of course the house is too large," remarked Congressman Delrick of Massachusetts. "With 435 members it is impossible for individuals to accomplish very much." The Massachusetts man realizes that it is expected that most of the members will simply come forward and make a quorum, vote right on the roll calls and let a select few manage the affairs of the house.

In the "Pierce Light."

Senator Ashurst of Arizona, repelling an insinuation that he had been too free with the telegraph at government expense, told the senate that he had been a deputy sheriff at eighteen, a justice of the peace at twenty-one and afterward representative in the territorial legislature, was speaker of the house, was elected to the territorial senate and twice elected district attorney of his county.

"In my contest for a seat in the United States senate," he added, "I was opposed both in the primary and the election by extremely able, bold and resourceful men, so that for a long time in Arizona I have been in that fierce light which beats upon officials."

A Roaming Red Man.

Congressman Carter of Oklahoma, who is seven-sixteenths Indian, might be called the "roaming red man," for he seldom settles down in one place in the house. He has a lot of good things to tell his fellow members, and he visits both sides of the chamber telling his stories.

Railroads Negligent?

"The railroads are doing nothing. They seem to be afraid to move. They are letting things go by default." So remarked a man about the capitol, speaking of the manner in which Postmaster General Burleson is extending the parcel post service, which the railroads claim is costing them much more than they are paid.

But the railroads are not keeping silent. Letters flood all persons supposed to have any influence, stating that the roads are being wronged and that railway mail pay must be adjusted.

Meanwhile it has dawned upon members of congress who put through the parcel post bill that they gave the postmaster general unlimited authority in changing rates, making extensions and, in fact, making the law over to suit himself.

Catron Escapes.

Senator Catron was the only senator on the committee on woman suffrage who voted against the constitutional amendment. He rather expected a series of letters from the women, but much to his surprise only one communication has been received criticizing him, and he has received a large number of commendatory letters.

A Drawback.

"Money talks." "I know, but my husband has an impediment in his income."—Houston Post.

CARDINAL GIBBONS.

Does Not Believe in Woman Suffrage.

PRELATE OPPOSES SUFFRAGE

Thinks Women Make Better Mothers Than Voters.

Chicago, Aug. 9.—Cardinal Gibbons arrived in Chicago en route to Milwaukee to preside over the meeting of the Federated Catholic Societies. He was met at the station by Archbishop Quigley, Bishop Dunne of Peoria and Bishop O'Connell of Richmond, Va.

"I am weary," said the aged cardinal after greeting the archbishop and the two bishops. "I am growing old and these trips are a trifle hard on an old man."

"Will you speak of woman suffrage?" he was asked.

"Personally I do not believe in women voting," was the cardinal's reply. "I have always opposed it. The church has not passed on the subject. I think women would make better mothers than good politicians. But suffrage is certain to come to women."

STRIKING DOCKMEN RETURNING TO WORK

Employers Believe Trouble Is Nearing an End.

Duluth, Aug. 9.—The backbone of the Missabe dock strike was broken when 105 of the striking night crew, surrounded by protecting special Oliver and city police, returned to work.

No disorder accompanied the split in the strikers' forces, and it is not believed that disorder here is possible. The dock is surrounded by police. Two boats backed in immediately and took ore.

"More of the men will return to their accustomed places and I believe that the rest of the ore dock workers, who have been intimidated by industrial workers of the world agitators, will regain courage and come back," said General Manager McGonagles.

The total number of men now at work is 165. Reports from Superior indicated that all is quiet on the Allouez dock.

DOUBTFUL WHEN BILL WILL PASS

KICK REVEALS LOST WILL

Testament at Milwaukee Comes to Light in Odd Way.

Milwaukee, Aug. 9.—A kick accidentally administered to a table upset it and disclosed a lost will, which will mean several thousands of dollars to the children of P. H. Kearns and a loss of that much to Mike and Jerry Shea. The will was admitted to probate.

It is the last testament of Miss Katie Shea, who died Feb. 24, 1912. After her death, her will, drafted Nov. 16, 1911, could not be found.

When the will could not be found a division of the property was planned. However, while movers were taking the furniture away a yellow envelope, containing the will, fell from the table.

LONDON SPECTATOR'S VIEW

Paper Thinks War With Mexico Would Last Three Years.

London, Aug. 9.—Commenting on the Mexican situation the Spectator says:

"If America gets involved in a Mexican war she will be lucky if it lasts only three years and stops short of forcing her to raise armies on the European scale."

"Perhaps the worst aspect of the whole affair is if America succeeds, as no doubt she ultimately would, her success would even be worse than failure."

"She would find evacuation practically impossible, as she would have upon her hands a huge new territory with a large population in permanent revolt."

KILLED BY OWN AUTO.

Des Moines, Aug. 9.—R. W. Breckenridge of Omaha was killed when run over by his own automobile. He cranked the machine, which proved to be in gear, and it knocked him down. His wife was in the automobile and stopped the engine, but not in time to save Breckenridge's life. Breckenridge was an attorney and a member of the executive committee of the American Bar association. He was fifty-three years old.

Senate May Not Act on Tariff Measure Before Sept. 15.

LITTLE PROGRESS SO FAR

Only Four Schedules Have Been Covered and Thirty-six Paragraphs in These Have Been Passed Over for Future Consideration—Death of Senator Johnston Reduces Democratic Majority to One.

Washington, Aug. 9.—All predictions of an early passage of the Democratic tariff bill by the senate are going glimmering.

Majority leaders realize only a beginning has been made and the earliest any one now will promise completion of the task is Sept. 15.

Ten days ago when a member of the finance committee said he thought the senate would pass the bill by Aug. 20 there were some who thought it might be possible, but that date is less than two weeks away and but four schedules have been covered, thirty-six paragraphs in these having been passed over for future consideration.

Now even those who suggest Sept. 15 as the date for final action are guided principally by hopes and do not share the views of others that it will be a later date before the final vote.

The death of Senator Johnston of Alabama has reduced the Democratic majority on the bill to one vote, the Louisiana senators having determined to vote against it because of the free sugar provision.

This slender majority has given rise to hopes in Republican breasts that they may be able to put through an amendment to the wool or sugar schedules.

In October of the same year the evidence indicated that Frederick Colwell, the governor's alleged "dummy," purchased from Boyer, Griswold & Co., 200 shares of "Big Four" railroad stock outright at 60 for \$12,025, the \$25 representing commission.

This was at the height of Mr. Sulzer's campaign for the governorship and transcripts from the firm's books showed the stock, bought on Oct. 16, was paid for partly in checks, at least two of which were identified in the testimony as Sulzer campaign contributions.

During the same month 200 more shares of "Big Four" were delivered to Colwell by Fuller and Gray, another stock exchange firm. This is the firm which had on its books "account No. 500," the identity of which was solved when a clerk, Effingham E. Sutton, testified that Mr. Gray had told him the account was Governor Sulzer's.

The governor's next transaction in Wall street as developed by the evidence was Jan. 16, 1913, when he deposited a \$5,000 check of A. E. Spriggs against his indebtedness to Harris & Fuller.

On July 9, 1913, he further reduced this indebtedness by selling his 100 shares of Southern Pacific for \$9,248. The governor's account with Harris & Fuller, according to Mr. Fuller, was known of No. 63.

The governor, according to Mr. Fuller, ignored the firm's calls for more margin.

Mormons to Quit Mexico.

Cardston, Alberta, Aug. 9.—The Mormon church has decided to abandon its Mexican colonization scheme and devote itself to settlements in Southern Alberta, according to a statement by President Joseph Smith.

SENOR DE LA BARRA.

Former Ambassador Has No Fear of Intervention.

ONLY REMOTE POSSIBILITY

Senor De La Barra Does Not Look for Intervention.

New York, Aug. 9.—That intervention by the United States is scarcely more than a remote possibility, but should there be intervention it would be fraught with the gravest consequences, said Francisco de La Barra, former provisional president of Mexico, upon his arrival here from Mexico.

Senor De La Barra will sail for Paris in a few days to assume his duties as Mexican ambassador to France.

"I am firmly of the belief," said Senor De La Barra, "that the intelligence of the American and Mexican peoples and the spirit of justice and fair play in both countries will prevail in the present situation and that the possibility of anything akin to international complications is most remote."

MAY NOT LET LIND LAND

Mexican Government Seriously Considering Such Action.

City of Mexico, Aug. 9.—No new official declaration affecting the attitude of the government toward John Lind was made, but there is reason to believe that the government is seriously considering going to the length of not permitting Mr. Wilson's representative to land at Vera Cruz.

What promises to be a gigantic demonstration of popular approval of the attitude taken by President Huerta regarding the coming to Mexico of Mr. Lind has been planned by the student element, led by their instructors for Sunday.

The demonstration will not assume an anti-American character, it is stated.

MINNESOTA CITIES WILL SECURE FUNDS

Federal Cash for St. Paul, Minneapolis and Duluth.

Washington, Aug. 9.—Minnesota's share of the \$50,000,000 or more to be apportioned by Secretary McAdoo to the various states to help move the crops will be confined to the banks of St. Paul, Minneapolis and Duluth.

This is the information made public by W. B. Geery of St. Paul, who is one of the four Minnesota financiers attending the conference of Western bankers with Assistant Secretary Williams of the treasury, which closed its meeting.

The exact amount the banks will have is not known and will not be determined until some later time.

Bankers of other sections of the country are still to be heard by the treasury officials next week. It is expected announcement of the amounts to be apportioned and the banks which are to receive them will then be made.

RIOT FOR SUNDAY.

London, Aug. 9.—Sunday afternoon suffragette riots have become as much a feature in London life as the mounting of guards at St. James palace and other set events. Sylvia Pankhurst, the militant suffragette, promises to lead next Sunday's riot. The battle cry will be "On to Downing street," where the residence of Premier Asquith is situated.

SZECHENYI DIVORCE AGAIN

Paris Report Reasserts That Countess Is to Sue.

Paris, Aug. 9.—Reports have been revived that Countess Szechenyi intends to bring suit for divorce despite the emphatic denials on the part of the count and countess that there has not been the slightest semblance of matrimonial trouble.

It is again asserted that the count has lost from \$4,000,000 to \$6,000,000 in financial ventures.

EUROPE'S POWERS ARTFUL DODGERS

Their Reasons For Boycotting Panama Canal Fair.

WILSON IS NOT WORRIED.

President Confident That Exposition Difficulties Will Be Overcome—Every Congressman Has His Own Currency Bill—House Too Large, Management of Affairs Devolves Upon a Few.

By ARTHUR W. DUNN.

Washington, Aug. 9.—[Special.]—When President Taft passed over the foreign complications to his successor he unloaded a great deal upon the incoming administration. Pause for a moment to contemplate the fact that the exposition to celebrate the great world event—the completion of the Panama canal—will not be patronized by world governments because of the hostile feeling which has been engendered.

The Mexican trouble is not our making, but just now it is the most serious of all our foreign complications. The Japan trouble is due to the action of California, but there are other affairs which are due entirely to the attitude of this government.

By abrogating the treaty with Russia we have offended the only real friendly government among the world powers. By violating the canal treaty we have offended Great Britain. By tariff regulations and provisions France and Germany have become offended. Altogether we have a very interesting state of foreign affairs.

Wilson Is Confident.

It seems rather fortunate that none of the troubles seriously worry the president. Mr. Wilson proceeds on the theory that the country has survived greater complications than now face us and that we will be able to worry through them some way, and the republic will survive. And when we come to think of it that is not such a bad way of looking at troubles, especially when they are not of our own making.

Unanimous on Currency.

"We can get a unanimous agreement on the currency bill," remarked Congressman Palmer of Pennsylvania, "if we should allow each man to write his own bill—that is, we might count on each fellow being unanimous for his own bill."

Which is not a very pleasing outlook for the coming Democratic caucus.

Too Many Members.

Most members of the house must realize that there are too many members. "Of course the house is too large," remarked Congressman Delrick of Massachusetts. "With 435 members it is impossible for individuals to accomplish very much." The Massachusetts man realizes that it is expected that most of the members will simply come forward and make a quorum, vote right on the roll calls and let a select few manage the affairs of the house.

In the "Pierce Light."

Senator Ashurst of Arizona, repelling an insinuation that he had been too free with the telegraph at government expense, told the senate that he had been a deputy sheriff at eighteen, a justice of the peace at twenty-one and afterward representative in the territorial legislature, was speaker of the house, was elected to the territorial senate and twice elected district attorney of his country.

"In my contest for a seat in the United States senate," he added, "I was opposed both in the primary and the election by extremely able, bold and resourceful men, so that for a long time in Arizona I have been in that fierce light which beats upon officials."

A Roaming Red Man.

Congressman Carter of Oklahoma, who is seven-sixteenths Indian, might be called the "roaming red man," for he seldom settles down in one place in the house. He has a lot of good things to tell his fellow members, and he visits both sides of the chamber telling his stories.

Railroads Negligent?

"The railroads are doing nothing. They seem to be afraid to move. They are letting things go by default." So remarked a man about the capitol, speaking of the manner in which Postmaster General Burleson is extending the parcel post service, which the railroads claim is costing them much more than they are paid.

But the railroads are not keeping silent. Letters flood all persons supposed to have any influence, stating that the roads are being wronged and that railway mail pay must be adjusted.

Meanwhile it has dawned upon members of congress who put through the parcel post bill that they gave the postmaster general unlimited authority in changing rates, making extensions and, in fact, making the law over to suit himself.

Catron Escapes.

Senator Catron was the only senator on the committee on woman suffrage who voted against the constitutional amendment. He rather expected a series of letters from the women, but much to his surprise only one communication has been received criticizing him, and he has received a large number of commendatory letters.

A Drawback.

"Money talks." "I know, but my husband has an impediment in his income."—Houston Post.

CARDINAL GIBBONS.

Does Not Believe in Woman Suffrage.

PRELATE OPPOSES SUFFRAGE

Thinks Women Make Better Mothers Than Voters.

Chicago, Aug. 9.—Cardinal Gibbons arrived in Chicago en route to Milwaukee to preside over the meeting of the Federated Catholic Societies. He was met at the station by Archbishop Quigley, Bishop Dunne of Peoria and Bishop O'Connell of Richmond, Va.

"I am weary," said the aged cardinal after greeting the archbishop and the two bishops. "I am growing old and these trips are a trifle hard on an old man."

"Will you speak of woman suffrage?" he was asked.

"Personally I do not believe in women voting," was the cardinal's reply. "I have always opposed it. The church has not passed on the subject. I think women would make better mothers than good politicians. But suffrage is certain to come to women."

STRIKING DOCKMEN RETURNING TO WORK

Employers Believe Trouble Is Nearing an End.

Duluth, Aug. 9.—The backbone of the Missabe dock strike was broken when 105 of the striking night crew, surrounded by protecting special Oliver and city police, returned to work.

No disorder accompanied the split in the strikers' forces, and it is not believed that disorder here is possible. The dock is surrounded by police. Two boats backed in immediately and took ore.

"More of the men will return to their accustomed places and I believe that the rest of the ore dock workers, who have been intimidated by Industrial Workers of the World agitators, will regain courage and come back," said General Manager McGonagles.

The total number of men now at work is 165.

Reports from Superior indicated that all is quiet on the Alouez dock.

NINE LABORERS ARE KILLED

Speeding Motor Vehicle Collides With Freight Train.

Poughkeepsie, N.Y., Aug. 9.—Speeding forty miles an hour a motor car laden with track laborers crashed into a freight train on the Central of New England railroad near Pleasant Valley. Four were killed outright and five were mortally injured.

DOUBTFUL WHEN BILL WILL PASS

KICK REVEALS LOST WILL

Testament at Milwaukee Comes to Light in Odd Way.

Milwaukee, Aug. 9.—A kick accidentally administered to a table upset it and disclosed a lost will, which will mean several thousands of dollars to the children of P. H. Kearns and a loss of that much to Mike and Jerry Shea. The will was admitted to probate.

It is the last testament of Miss Katie Shea, who died Feb. 24, 1912. After her death, her will, drafted Nov. 16, 1911, could not be found.

When the will could not be found a division of the property was planned. However, while movers were taking the furniture away a yellow envelope, containing the will, fell from the table.

LONDON SPECTATOR'S VIEW

Paper Thinks War With Mexico Would Last Three Years.

London, Aug. 9.—Commenting on the Mexican situation the Spectator says:

"If America gets involved in a Mexican war she will be lucky if it lasts only three years and stops short of forcing her to raise armies on the European scale."

"Perhaps the worst aspect of the whole affair is if America succeeds, as no doubt she ultimately would, her success would even be worse than failure."

"She would find evacuation practically impossible, as she would have upon her hands a huge new territory with a large population in permanent revolt."

KILLED BY OWN AUTO.

Des Moines, Aug. 9.—R. W. Breckenridge of Omaha was killed when run over by his own automobile. He cranked the machine, which proved to be in gear, and it knocked him down. His wife was in the automobile and stopped the engine, but not in time to save Breckenridge's life. Breckenridge was an attorney and a member of the executive committee of the American Bar association. He was fifty-three years old.

Senate May Not Act on Tariff Measure Before Sept. 15.

LITTLE PROGRESS SO FAR

Only Four Schedules Have Been

Covered and Thirty-six Paragraphs in These Have Been Passed Over for Future Consideration—Death of Senator Johnston Reduces Democratic Majority to One.

Washington, Aug. 9.—All predictions of an early passage of the Democratic tariff bill by the senate are going glimmering.

Majority leaders realize only a beginning has been made and the earliest any one now will promise completion of the task is Sept. 15.

Ten days ago when a member of the finance committee said he thought the senate would pass the bill by Aug. 20 there were some who thought it might be possible, but that date is less than two weeks away and but four schedules have been covered, thirty-six paragraphs in these having been passed over for future consideration.

Now even those who suggest Sept. 15 as the date for final action are guided principally by hopes and do not share the views of others that it will be a later date before the final vote.

The death of Senator Johnston of Alabama has reduced the Democratic majority on the bill to one vote, the Louisiana senators having determined to vote against it because of the free sugar provision.

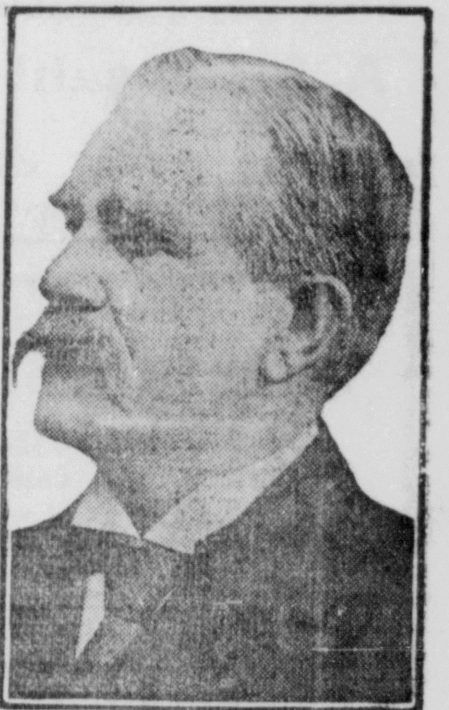

This slender majority has given rise to hopes in Republican breasts that they may be able to put through an amendment to the wool or sugar schedules.

SENATOR JOHNSTON IS DEAD

Aged Alabamian Succumbs to Pneumonia at Washington.

Senator Johnston was seventy years old, had served through the war in the Confederate army, was governor of Alabama for two terms and had been a member of the senate since 1907.

The Staples men did not want to have the usual rule of 25 per cent govern. They separated the prize money this way: 40, 30, 20 and 10, hoping in this manner to probably win the big money. Instead of this they got the small end of it or no end at all, the first Staples man being No. 7 on the list. Art White, of this city, is well known wherever shooters congregate, having won the diamond badge at one of the annual events.

IRONTON MINE TO SHIP BIG TONNAGE

Cuyuna-Duluth Contracts to Ship 50,000 Tons—Warehouse Being Built at Mine

MUCH BUILDING IN IRONTON

Thomas Keating Building a Cement Walk That Will Join Crosby and Ironton

Ironton, Minn., August 8.—The Cuyuna-Duluth Iron company is erecting a warehouse for supplies. Ore is being hoisted steadily. The first shipment has been made to the Lake Superior Iron & Chemical company's smelter at Ashland, Wis., the ore assaying from 63 to 65 per cent iron. The company has contracted to ship 50,000 tons of ore this season.

Ironton avenue is being improved by the building of 12 foot cement sidewalks.

Frame work for the first floor of the Peter Spina hotel is being placed in position by Contractor C. B. Rowley.

H. S. Nelson has built 19 fireplaces this year, the last two being for John Hill and Primus D. Kreitter.

Eight business blocks are under construction in Ironton.

A large department store, two stories high and measuring 48x100 feet, is being built on Fourth street.

Erick Olson has commenced the building of a two story building 24 by 80 feet in size for Carl Dandria.

The moving picture house has been nearly completed.

Thomas Keating has a large crew of men at work laying cement sidewalk in his addition and the completion of the walk will enable one to walk on cement from the Ironton postoffice to the Crosby postoffice. This will connect Second street of Crosby and Second street of Ironton.

Ellingson Brothers are putting up a store building 24x50 feet and a story in height north of their present location. The property will be rented.

The Pennington mine will shortly start shipping ore full blast.

Complaint is made that the viaduct over the Soo tracks west of Ironton has a very steep approach. It is almost impossible to run an automobile up the steep incline and make a square turn half way up and then get any footing in the sand. Several cars have been stalled on the grade.

Application for Transfer of Liquor License

To the Council of the City of Brainerd, Minnesota:

The undersigned, Tom Bosley, hereby makes application to transfer his license to sell intoxicating liquors, at, upon and in the room and premises described as follows, to-wit: No. 717 Laurel Street, on the ground floor, in the City of Brainerd, from April 2nd, 1913, until April 2nd, 1914, to No. 608 Laurel Street, ground floor, from August 19th, 1913, to April 2nd, 1914.

Dated August 2nd, 1913.

WISCONSIN MEN INVEST IN CUYUNA

Ten Drills at Work Within Two Mile Radius of Town add Prosperity to Cuyuna

KENNEDY PAYDAY ON THE 17TH

\$14,000 to \$16,000 is Distributed Monthly—Master Mechanic Smith Builds New House

Cuyuna, Minn., Aug. 8.—Mrs. S. W. Glenn and daughter, Iverne, were at Deerwood last week.

Mr. and Mrs. A. Gates attended the celebration at Ironton Sunday on the occasion of the first shipment of ore from the Cuyuna-Duluth mine.

Foley street is now finely graveled.

The potato crop in the vicinity of Cuyuna is one of the best ever seen.

Under the direction of Street Commissioner D. G. Sanderson, the graveling of all the streets in the village has been commenced and Cuyuna will soon be transformed into a village whose streets are among the best in the county.

Master Mechanic Smith has commenced construction of a cottage and the work of excavation is almost completed.

Eric Jorstad and S. Johnson, of River Falls, Wis., have purchased lots in Cuyuna. They were most favorably impressed with the town.

E. J. W. Donahue and Robert Wendlandt, of Duluth, were in Cuyuna Wednesday and took a trip out to the Federal property.

Leon W. Thomas, Vernon Sugrue and Frank Buchanan expect to leave for St. Paul to attend the shooting tournament held there the latter part of the week.

Payday at the Kennedy mine is on the 17th and the money disbursed by the Rogers-Brown Ore company runs from \$14,000 to \$16,000 a month.

Ten drills are at work within two miles of Cuyuna.

Postmaster Frank Buchanan says that all indications point to good chicken hunting this fall. There has been much feed for the birds and the hunting afforded by northern Minnesota will be something to gladden the heart of every true sportsman.

Art White was very successful in the Staples shooting tournament. He stood first in the general averages, George Trent, Jr., second, Leon Thomas, of Cuyuna, third and V. M. Sugrue, of Cuyuna, fourth. The Staples men did not want to have the usual rule of 25 per cent govern. They separated the prize money this way: 40, 30, 20 and 10, hoping in this manner to probably win the big money. Instead of this they got the small end of it or no end at all, the first Staples man being No. 7 on the list. Art White, of this city, is well known wherever shooters congregate, having won the diamond badge at one of the annual events.

IRONTON MINE TO SHIP BIG TONNAGE

Cuyuna-Duluth Contracts to Ship 50,000 Tons—Warehouse Being Built at Mine

MUCH BUILDING IN IRONTON

Thomas Keating Building a Cement Walk That Will Join Crosby and Ironton

Ironton, Minn., August 8.—The Cuyuna-Duluth Iron company is erecting a warehouse for supplies. Ore is being hoisted steadily. The first shipment has been made to the Lake Superior Iron & Chemical company's smelter at Ashland, Wis., the ore assaying from 63 to 65 per cent iron. The company has contracted to ship 50,000 tons of ore this season. Ironton avenue is being improved by the building of 12 foot cement sidewalks.

Frame work for the first floor of the Peter Spina hotel is being placed in position by Contractor C. B. Rowley.

H. S. Nelson has built 19 fireplaces this year, the last two being for John Hill and Primus D. Kreitter. Eight business blocks are under construction in Ironton.

A large department store, two stories high and measuring 48x100 feet, is being built on Fourth street.

Erick Olson has commenced the building of a two story building 24 by 80 feet in size for Carl Dandria. The moving picture house has been nearly completed.

Thomas Keating has a large crew of men at work laying cement sidewalk in his addition and the completion of the walk will enable one to walk on cement from the Ironton postoffice to the Crosby postoffice. This will connect Second street of Crosby and Second street of Ironton.

Blingson Brothers are putting up a store building 24x50 feet and a story in height north of their present location. The property will be rented.

The Pennington mine will shortly start shipping ore full blast. Complaint is made that the viaduct over the Soo tracks west of Ironton has a very steep approach. It is almost impossible to run an automobile up the steep incline and make a square turn half way up and then get any footing in the sand. Several cars have been stalled on the grade.

Application for Transfer of Liquor License

To the Council of the City of Brainerd, Minnesota:

The undersigned, Tom Bosley, hereby makes application to transfer his license to sell intoxicating liquors, at, upon and in the room and premises described as follows, to-wit: No. 717 Laurel Street, on the ground floor, in the City of Brainerd, from April 2nd, 1913, until April 2nd, 1914, to No. 608 Laurel Street, ground floor, from August 19th, 1913, to April 2nd, 1914.

FOURTH WARD FAVORS FRANCHISE

Mass Meeting Called by Aldermen
Anderson and Gallupe Votes
83 to 3 in Favor of

STREET RAILWAY FRANCHISE

The Meeting at the Southeast Brainerd Hose House Friday Evening
was an Enthusiastic One

By a vote of 83 to 3 the mass meeting at the Southeast Brainerd hose house Friday evening placed itself squarely on record as favoring the adoption of the Minnesota Central Railway Co. street railway franchise as submitted to the council by the council committee of five.

The hose house was full to overflowing. All the seats were occupied and people stood in the aisles. E. Jones presided as chairman and Joe Nelson was the secretary. Many addresses were made, all being enthusiastic for the project with the exception of one speaker.

Two petitions were then placed on the table and the people filed up and signed. The one in favor of the franchise bore 83 signatures. Against the franchise were 3 signers.

On motion of Joe Nelson, seconded by P. M. Bistar, the assemblage thanked the aldermen of the ward, Messrs Anderson and Gallupe, who had called the meeting, for the opportunity given them to express themselves and to be informed of the franchise.

TO STOP RIDING ON WALKS

Mayor Henning Gives Instructions to
Chief Quinn to Start Crusade
Against Practice

Mayor Henning has given Chief of Police Quinn instructions to see that bicycle riders cease their practice of riding on sidewalks, as many people have complained to him and have asked that this kind of riding cease. In some instances, it is claimed, little children have barely escaped serious injury.

Yesterday noon Special Policeman Henry Schroeder saw E. W. Van Walk riding his wheel across the sidewalk south of the Lowell school and he was fined \$1 and costs in municipal court.

Mr. Van Walk said he was not given an opportunity to inform his wife why he would be late for dinner and was refused a chance to get a drink of water. Chief Quinn said he was confined half an hour.

Chief Quinn states the police have been instructed to stop the sidewalk riding of bicycles and that following the order Mr. Van Walk happened to be the first man caught. "Any other man caught riding on walks," said the chief, "will also be arrested."

MUSIC AND DRAMA

"A Girl of the Underworld"

The dramatic construction of the new play, "A Girl of the Underworld" is a wonderful bit of play writing. The auditor is to form a different idea as to the final act come as each of the first three acts end. Of course the last act is conclusive. While the play itself is perfectly logical, it is treated in an entirely new vein. The various characters stand out in a manner altogether vivid and convincing. To undertake a description of the play would be a difficult task, as the spectator is rapidly led from one point of view to another. Everywhere the performance has received great praise, and it seems as though "A Girl of the Underworld" is a lasting success. The date is fixed for Thursday, August 14, at the Brainerd opera house.

BOOSTER CLUB MEETING IS HELD

THE BRAINERD DEPOT SIGN

Marching Club for Labor Day Discussed—Toilets for Public
Parks—Street Ry.

A meeting of the Brainerd Booster club was held in the Gardner block Friday evening and a large attendance was present. The minutes of the last meeting were read and approved.

The following applicants were accepted as members of the club: E. R. House, M. Woodley, A. E. Berglund, K. A. Gustafson, D. F. Bolles, R. R. Gould.

Dr. Joseph Nicholson, treasurer of the club, made his report and the same was accepted and placed on file. George J. Vogel called the club's attention to the better advertisement of the town and to that end suggested that a large sign of some kind with the name "BRAINERD" on it be placed in a conspicuous position that people coming through the city on the trains could see it. A short mention of Brainerd's resources might also be added. This matter was discussed at length and finally a motion was made and carried that a committee of three be appointed by the president to formulate a plan and a feasible way of having "BRAINERD" viewed from the depot.

The matter of a marching club for Labor day was brought up and discussed.

The placing of toilets in the public parks was discussed and on motion the matter was referred to the public improvements committee to take up with the park board and report at an early date.

P. B. Nettleton spoke of the street railway franchise and said that he strongly favored it and told his reasons why. He said that a new line will be built on the range and that if Brainerd did not accept the chance of being the center it would lose it. He considered immediate action important.

"Brainerd," said Mr. Nettleton, "has everything to gain and nothing to lose. No bonus is asked for. Look at the possibilities."

B. J. Broady, of the firm of Hagard & Broady, and C. E. Haake spoke of amendments they deemed necessary.

George H. Gardner, secretary of the Boosters club, spoke strongly in favor of granting the franchise and said that in his opinion 95 per cent of the people of the city favored the granting of it.

DEVELOPMENTS OF WEEK ON RANGE

Ore Handlers Strike Disturbing—
Range However has Other
Work Besides Mining

PENNINGTON PIT MINE SHIPS

Duluth-Brainerd Starts Shaft Work
in 32-47-29—Mining Started
in Brainerd

The disturbing factor in Cuyuna range production of ore is the ore handlers' strike at the Head of the Lakes. With no outlet for the ore, shipping mines may be tied up. Nevertheless there is work enough on the range and the Cuyuna range will weather this strike as it has done others in the past. It will not bother stripping operations nor drilling nor preparatory work at the mines. This will continue unabated.

The Inland Steel company has commenced stripping at Crosby and a steam shovel is at work.

The Pennington pit mine entered the ore shipping lists on Monday. By Tuesday morning 33 loaded cars were on the sidetracks and Wednesday there were 50. It is believed the mine will ship daily at least 20 cars. The water which had gathered from seepage and rains has been pumped out.

The Cuyuna-Duluth mine at Iron-ton is increasing its ore hoisting capacity. A warehouse for supplies has been built near the head frame. The shift bosses at the mine are Ike Williams and Louis Johnson.

In section 32, township 47, range 29 across Mahanomen lake from the Cuyuna-Mille Laes company mine, the Duluth-Brainerd Mining company is hauling out timber for its three-compartment shaft, a duplicate of the Cuyuna-Mille Laes shaft.

The Cuyuna-Mille Laes mine is filling an order for a cargo of 6,000 tons to be shipped to the Bethlehem Steel Co. in the next ten days. Cars are being shipped to the Ashland Furnace Co. at Ashland, Wis. In the cars at Superior and ready to be dumped in the Bethlehem cargo are 5,300 tons of ore. Two additional crews are to be put on at the Cuyuna-Mille Laes and the Cuyuna-Duluth mines.

The Adams mine at Oreland is progressing favorably in its work of drifting and it is expected that some ore will be hoisted soon.

The Armour No. 1 has had a steam shovel at work loading from its stockpile. The Armour No. 2 is hoisting.

The Kennedy mine at Cuyuna had a good run the other day early this week when in one shift 73 cars were loaded from the steam shovel and 25 from the shaft. Supt. H. J. Kruse and family have returned from a trip on the Great Lakes.

The Barrows mine of the M. A. Hanna company at Barrows is handling the natural flow of water very well. The big pump is working well. A station is being cut for another Prescott pump. Supt. Ben Nichols has shown himself the man capable of coping with the situation at Barrows. He has the water in control and ore hoisting under way.

H. B. Blackwood, of Crosby, has a drill working north of McGregor in Aitkin county and situated in section 14, township 48, range 24. Properties in section 20, township 47, range 28 owned by Glenn and other parties of Superior and lying north of Rabbit lake are reported to be in ore. One or two drills are working in section 19, township 47, range 28 on the Schroeder property and are reported in ore.

Of extreme interest to Brainerd people is the action of the stockholders of the Brainerd-Cuyuna Mining company in deciding to sink a shaft in their property in the city limits a mile from the postoffice where 24 or more holes have revealed a large body of good ore. The preliminary work for a shaft will be commenced Monday morning, August 11 and will be continued until the 200 foot level is reached, at which point the plat will be cut and the opening of the ore body will take place. The company hopes to be numbered among the producing mines of the Cuyuna range during the season of 1914.

G. Roy Johnson has assigned to Roderick J. Johnson, Harry H. Carr, George W. Logan, Peter McLaughlin and Frank Carr his lease covering the northwest ¼ of the southwest ¼ of section 2, township 45, range 30.

J. B. Middlecoff has conveyed to R. H. Middlecoff an undivided 1-96 interest in an option for a lease covering the southeast ¼ of section 36, township 47, range 29. Speaking of small interests being conveyed, the smallest on record at the Crow Wing county court house is an undivided 35-1,000 interest.

The Onahman Iron Co. has conveyed to Richard Lord its release of option covering the southwest ¼ of the southwest ¼ of section 26, township 46, range 30. Louis Rouchleau, of Minneapolis, has conveyed to Clarence L. Green his release and quit claim of option on the northwest ¼ of the southeast ¼ and lots 6 and 7 of section 5, township 134, range 27.

A party of Cuyuna-Mesaba stockholders recently visited the range and inspected their holdings in section 23, township 47, range 29. Ernest LeDuc, Joe Oreckowsky and Dr. D. D. Murray accompanied them. The

Pays Particular Attention to the
Alfalfa at Gruenhagen and
Wise Farms

A. B. Hostetter, of Duluth, district supervisor of field studies, farm management and demonstrations, visited Brainerd Friday and accompanied Fred H. Gruenhagen in an auto tour of the agricultural district immediately tributary to Brainerd.

The R. R. Wise farm at North Long lake was visited and the alfalfa examined. In general the field is doing very well and is ready for a second cutting. It is growing luxuriantly in the sandy soil and is of good color. Some few patches were of sickly color and upon being examined the plants showed no bacteria, which was an indication that the bacteria had not spread through the entire field. Mr. Hostetter took samples of these and will send them to the University of Minnesota for expert information as to the cause of poor growth. Mr. Wise showed some alfalfa plants which had weathered eight years of neglect and were still thrifty.

The F. H. Gruenhagen farm south of the city was visited. Here was found another fine field of alfalfa, waist high, and about ready for cutting the second crop. From the appearance of the two fields Mr. Hostetter was assured that there was no question but that alfalfa could be successfully grown on sandy or heavy soil. Proper cultivation would assure results in both cases.

Arrangements have been practically completed for the establishment of an agricultural agent in Crow Wing county.

Mr. Hostetter recommended especially the formation of a county agricultural bureau composed of farmers and citizens representing every section of the county. This county organization would raise the additional funds needed for the general expense of the county agent and for the purpose of offering prizes and adopting other means of promoting agricultural growth.

"There is no reason why Crow Wing county should not move forward as rapidly agriculturally as any other favored spot in Minnesota," said Mr. Hostetter.

He attended a meeting of young farmers at Motley where ten families belong to the organization and he was impressed by their enthusiasm and their evident desire to work together and study and practice improved methods of farming. At Deerwood Mr. Hostetter conferred with Thomas Keating and from him he received for examination various plants and also soil samples. Mr. Keating is showing much interest in agricultural matters in his section of the county.

FOURTH WARD ELECTORS FRANCHISE

Mass Meeting Called by Aldermen
Anderson and Gallupe Votes
83 to 3 in Favor of

STREET RAILWAY FRANCHISE

The Meeting at the Southeast Brainerd Hose House Friday Evening was an Enthusiastic One

By a vote of 83 to 3 the mass meeting at the Southeast Brainerd hose house Friday evening placed itself squarely on record as favoring the adoption of the Minnesota Central Railway Co. street railway franchise as submitted to the council by the council committee of five.

The hose house was full to overflowing. All the seats were occupied and people stood in the aisles. E. Jones presided as chairman and Joe Nelson was the secretary. Many addresses were made, all being enthusiastic for the project with the exception of one speaker.

Two petitions were then placed on the table and the people filed up and signed. The one in favor of the franchise bore 83 signatures. Against the franchise were 3 signers.

On motion of Joe Nelson, seconded by P. M. Bislar, the assemblage thanked the aldermen of the ward, Messrs Anderson and Gallupe, who had called the meeting, for the opportunity given them to express themselves and to be informed of the franchise.

TO STOP RIDING ON WALKS

Mayor Henning Gives Instructions to Chief Quinn to Start Crusade Against Practice

Mayor Henning has given Chief of Police Quinn instructions to see that bicycle riders cease their practice of riding on sidewalks, as many people have complained to him and have asked that this kind of riding cease. In some instances, it is claimed, little children have barely escaped serious injury.

Yesterday noon Special Policeman Henry Schroeder saw E. W. Van Walk riding his wheel across the sidewalk south of the Lowell school and he was fined \$1 and costs in municipal court.

Mr. Van Walk said he was not given an opportunity to inform his wife why he would be late for dinner and was refused a chance to get a drink of water. Chief Quinn said he was confined half an hour.

Chief Quinn states the police have been instructed to stop the sidewalk riding of bicycles and that following the order Mr. Van Walk happened to be the first man caught. "Any other man caught riding on walks," said the chief, "will also be arrested."

MUSIC AND DRAMA

"A Girl of the Underworld"

The dramatic construction of the new play, "A Girl of the Underworld" is a wonderful bit of play writing. The auditor is to form a different idea as to the final end come as each of the first three acts end. Of course the last act is conclusive. While the play itself is perfectly logical, it is treated in an entirely new vein. The various characters stand out in a manner altogether vivid and convincing. To undertake a description of the play would be a difficult task, as the spectator is rapidly lead from one point of view to another. Everywhere the performance has received great praise, and it seems as though "A Girl of the Underworld" is a lasting success. The date is fixed for Thursday, August 14, at the Brainerd opera house.

BOOSTER CLUB MEETING IS HELD

Large Attendance Present—Six New Members Accepted—Treasurer Nicholson Reports

THE BRAINERD DEPOT SIGN

Marching Club for Labor Day Discussed—Toilets for Public Parks—Street Ry.

A meeting of the Brainerd Booster club was held in the Gardner block Friday evening and a large attendance was present. The minutes of the last meeting were read and approved.

The following applicants were accepted as members of the club: E. R. House, M. Woodley, A. E. Berglund, K. A. Gustafson, D. F. Bolles, R. R. Gould.

Dr. Joseph Nicholson, treasurer of the club, made his report and the same was accepted and placed on file. George J. Vogel called the club's attention to the better advertisement of the town and to that end suggested that a large sign of some kind with the name "BRAINERD," on it be placed in a conspicuous position that people coming through the city on the trains could see it. A short mention of Brainerd's resources might also be added. This matter was discussed at length and finally a motion was made and carried that a committee of three be appointed by the president to formulate a plan and a feasible way of having "BRAINERD" viewed from the depot.

The matter of a marching club for Labor day was brought up and discussed.

The placing of toilets in the public parks was discussed and on motion the matter was referred to the public improvements committee to take up with the park board and report at an early date.

P. B. Nettleton spoke of the street railway franchise and said that he strongly favored it and told his reasons why. He said that a new line will be built on the range and that if Brainerd did not accept the chance of being the center it would lose it. He considered immediate action important.

"Brainerd," said Mr. Nettleton, "has everything to gain and nothing to lose. No bonus is asked for. Look at the possibilities."

B. J. Broady, of the firm of Haggard & Broady, and C. E. Haake spoke of amendments they deemed necessary.

George H. Gardner, secretary of the Boosters club, spoke strongly in favor of granting the franchise and said that in his opinion 95 per cent of the people of the city favored the granting of it.

DEVELOPMENTS OF WEEK ON RANGE

Ore Handlers Strike Disturbing—Range However has Other Work Besides Mining

PENNINGTON PIT MINE SHIPS

Duluth-Brainerd Starts Shaft Work in 32-47-29—Mining Started in Brainerd

The disturbing factor in Cuyuna range production of ore is the ore handlers' strike at the Head of the Lakes. With no outlet for the ore, shipping mines may be tied up. Nevertheless there is work enough on the range and the Cuyuna range will weather this strike as it has done others in the past. It will not bother stripping operations nor drilling nor preparatory work at the mines. This will continue unabated.

The Inland Steel company has commenced stripping at Crosby and a steam shovel is at work.

The Pennington pit mine entered the ore shipping lists on Monday. By Tuesday morning 33 loaded cars were on the sidetracks and Wednesday there were 50. It is believed the mine will ship daily at least 20 cars. The water which had gathered from seepage and rains has been pumped out.

The Cuyuna-Duluth mine at Iron-ton is increasing its ore hoisting capacity. A warehouse for supplies has been built near the head frame. The shift bosses at the mine are Ike Williams and Louis Johnson.

In section 32, township 47, range 29 across Mahomen lake from the Cuyuna-Mille Lacs company mine, the Duluth-Brainerd Mining company is hauling out timber for its three-compartment shaft, a duplicate of the Cuyuna-Mille Lacs shaft.

The Cuyuna-Mille Lacs mine is filling an order for a cargo of 6,000 tons to be shipped to the Bethlehem Steel Co. in the next ten days. Cars are being shipped to the Ashland Furnace Co. at Ashland, Wis. In the cars at Superior and ready to be dumped in the Bethlehem cargo are 5,300 tons of ore. Two additional crews are to be put on at the Cuyuna-Mille Lacs and the Cuyuna-Duluth mines.

The Adams mine at Oreland is progressing favorably in its work of drifting and it is expected that some ore will be hoisted soon.

The Armour No. 1 has had a steam shovel at work loading from its stockpile. The Armour No. 2 is hoisting.

Introducing Maud Feeley to the moving Picture audiences of the country. She won an international beauty contest a few years ago and her grace and girlish beauty, reinforced by years of training on the legitimate stage, makes a strong appeal in the films. The entire Thanhauser company enter into the spirit of this story of the beautiful blind Princess, who must not be informed of her blindness until she is sixteen. Then the Count discovers her and breaks the spell and she recovers her sight. A whimsical story full of beauty and charm.

BALLARDS PLAY BRAINERD SUNDAY

Manager Tom Considine Announces a Strong Lineup for Tomorrow's Game

FRED COOK WILL PITCH GAME

Reported that Jacobson and Zolowski to be the Battery for the Ballard Team

The game with the Ballards of Minneapolis, scheduled for 3 o'clock Sunday afternoon at the Koenig grounds, will bring into action the fast semi-professional Minneapolis team which in a series of three games lately played with Brainerd won 2 out of 3.

It is reported that the Ballards will have as their battery Jacobson and Zolowski. The latter tried out with the White Sox, of Chicago, at one time. Jacobson is a right-handed pitcher and throws a wide assortment of curves and is possessed of a lot of speed.

Cook will be on the mound for the locals and can be assured to do his level best to win. The lineup of the locals reads, Cook pitcher, Roderick catcher, Lauerer first base, Larson second base, Templeton shortstop, Erickson third base, Victor left field, Kingen center field and Bush right field.

Victor is now a resident of Brainerd. The young man is a promising mining engineer and is employed by Carl Zapffe.

It is not certain whether Sheffield can be in Brainerd and accordingly the lineup is as announced. The fans know what Brainerd can do and they have seen the Ballards play. It's bound to be a good game and so turn out and fill the grandstand, the bleachers and the grounds and show the boys you appreciate a game in which the best possible lineup has been secured.

LESLIE BUSH

Here is Leslie Bush, the kid pitcher of the Philadelphia Athletics who was secured from Brainerd, Minn. Oddly enough Bush comes from the same Minnesota town that produced the famous Chief Bender, and strange as it is, these two men are proving the mainstay for Uncle Connie Mack. Bush learned the game on the lots of Brainerd and then went to the Union association, being a member of the Missoula club. Connie Mack heard of the prowess of the youngster and signed him for a trial. Bush shares honors with our George Daus and one of two others of being one of the greatest young twirlers in baseball. —Duluth Herald.

The St. Paul Pioneer Press gave Bush a heading clean across the top of the sport page and Brainerd received a lot of mention.

The Superior Telegram said: "Baker got a home run yesterday, the blow putting Cleveland on the bum. The Naps blew up in the fifth inning. Bush, the Brainerd twirler who is playing his first season in the big league, pitched nice ball for the Athletics."

Our old friend, the Daily Missoulian of Missoula, Mont., came near getting out an extra when news of Bush's share in the great victory over the Naps filtered across the mountains.

The Dispatch reporter is hopped on by a contemporary and accused of knowing nothing of baseball. This is what the Dispatch said of Bush when he went out to Connie Mack shortly after his Missoula engagement. Bush has the sand and the nerve and will make good as a pinch pitcher. Brainerd banks on Bush.

JUDGE MANTOR BROKE 116

Sugrue, Thomas and Buchanan, of Cuyuna make Good Record Diamond Badge Today

Good scores were the order of the day at the opening shoot on the range of the St. Paul Rod and Gun club Friday, says the St. Paul Pioneer Press. A large field of marksmen competed and in the professional and amateur classes respectively W. R. Crosby, the O'Fallon, Ill., crack and R. F. Appleman, of St. Paul, were high guns with 143 targets out of 150. Among the amateurs four women shooters made excellent scores.

Today the diamond badge now held by E. J. Goward of Aitkin will be shot for. This event is open to all amateurs of the state and some excellent scores will doubtless result. Scores of Brainerd men are:

RESOLUTION

Amendment to Lighting Contract

Whereas, under certain provisions of the existing contract between the City of Brainerd, Minnesota, and Cuyuna Range Power Company, a Minnesota corporation, with respect to furnishing electric current thereunder by said Company to said City, the said Company is limited to a route from its existing power plant in said City, mentioned in said contract, to the eastern city limits in making a pole line connection with said Company's main pole line running east from its power dam on Crow Wing river; and,

Whereas, it appears that it is impracticable to run a connecting line to the east, as provided in said existing contract, because of the nature or soft condition of the certain swampy tract of land along such proposed route, and said Company now desires, in making necessary pole line connections, to erect and maintain a connecting pole line from said existing power plant in a southerly course to the southern city limits, to the end that electric current may be supplied directly from said company's main line above mentioned, and said Company has requested the City Council to authorize such new route; and,

Whereas, an amendment is requisite to the said existing contract, in order to properly provide for and authorize such change of connecting pole line route;

Now, Therefore, be It Resolved:

That said contract be, and the same hereby is, amended by eliminating the provisions thereof relating to the construction or erection of such connecting pole line from said power plant, in said city, east to the city limits and by inserting, in lieu thereof, proper provisions providing for, and permitting said Cuyuna Range Power Company to erect a connecting pole line along the route hereinafter described; and that said Company be, and it hereby is, authorized to erect and maintain a connecting pole line in said City running south from the north end of Towne street, along the westerly curb line thereof, and continuing south along the westerly curb line of Twelfth street, to the northerly street-curb line of Willow street; thence east, along the northerly curb line of said Willow street, to a point in Thirteenth street six feet east of the west boundary line thereof; thence southerly along the line six feet east of the west boundary line of the public highway, which public highway is the prolongation or extension southerly of or from said Thirteenth Street, to the city limits; such new pole line to be constructed, erected and maintained according to all present or future laws or ordinances of said city, and the details of construction and maintenance of such new pole line to be in accordance with the best modern practice in cedar pole line construction carrying high tension wires, as now provided in said contract.

Dear Mr. Millard:
Have been so busy of late that I did not find time to answer your two welcome letters. I am taking your advice about studying English. It is helping me a great deal.

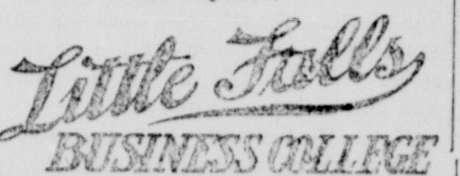

Have been working at stenographer and bookkeeper for the College of St. Thomas since leaving school last spring. They pay me \$65 a month, which you can see is very good for one who has never had any high school training, and only out of college a few months. I am glad I took a long course with you. It has put me where I am now and this is only the beginning.

I hope you are enjoying your vacation and that the old school will continue to turn out students who can face the old world and with a smile say, "The world owes me nothing; I'll win it for myself." I am one of them and am proud to say it is due to the Little Falls Business College.

Good scores were the order of the day at the opening shoot on the range of the St. Paul Rod and Gun club Friday, says the St. Paul Pioneer Press. A large field of marksmen competed and in the professional and amateur classes respectively W. R. Crosby, the O'Fallon, Ill., crack and R. F. Appleman, of St. Paul, were high guns with 143 targets out of 150. Among the amateurs four women shooters made excellent scores.

Today the diamond badge now held by E. J. Goward of Aitkin will be shot for. This event is open to all amateurs of the state and some excellent scores will doubtless result. Scores of Brainerd men are:

RESOLUTION

Amendment to Lighting Contract

Whereas, under certain provisions of the existing contract between the City of Brainerd, Minnesota, and Cuyuna Range Power Company, a Minnesota corporation, with respect to furnishing electric current thereunder by said Company to said City, the said Company is limited to a route from its existing power plant in said City, mentioned in said contract, to the eastern city limits in making a pole line connection with said Company's main pole line running east from its power dam on Crow Wing river; and,

Whereas, it appears that it is impracticable to run a connecting line to the east, as provided in said existing contract, because of the nature or soft condition of the certain swampy tract of land along such proposed route, and said Company now desires, in making necessary pole line connections, to erect and maintain a connecting pole line from said existing power plant in a southerly direction to the southern city limits, to the end that electric current may be supplied directly from said company's main line above mentioned, and said Company has requested the City Council to authorize such new route; and,

Whereas, an amendment is requisite to the said existing contract, in order to properly provide for and authorize such change of connecting pole line route;

Now, Therefore, be It Resolved:

That said contract be, and the same hereby is, amended by eliminating the provisions thereof relating to the construction or erection of such connecting pole line from said power plant, in said city, east to the city limits and by inserting, in lieu thereof, proper provisions providing for, and permitting said Cuyuna Range Power Company to erect a connecting pole line along the route hereinafter described; and that said Company be, and it hereby is, authorized to erect and maintain a connecting pole line in said City running south from the north end of Towne street, along the westerly curb line thereof, and continuing south along the westerly curb line of Twelfth street, to the northerly street-curb line of Willow street; thence east, along the northerly curb line of said Willow street, to a point in Thirteenth street six feet east of the west boundary line thereof; thence southerly along the line six feet east of the west boundary line of the public highway, which public highway is the prolongation or extension southerly of or from said Thirteenth street, to the city limits; such new pole line to be constructed, erected and maintained according to all present or future laws or ordinances of said city, and the details of construction and maintenance of such new pole line to be in accordance with the best modern practice in cedar pole line construction carrying high tension wires, as now provided in said contract.

A farewell party was given in honor of Nelly Carlise at the home of Tim Amos on Friday evening.

Fred Englehart certainly rolled in the hay Friday—but consider the two extra men.

Mary Fallon expects to leave for her home at Hutchinson, Minn., the first of next week, after a long visit at the home of her uncle, J. W. Fallon. Francis Fallon and cousin spent Thursday evening at the Englehart home.

Raymond Klenow has bought a driving horse.

DEVELOPMENTS OF WEEK ON RANGE

(Continued from page three)

property has been drilled by Gaylord & Gault and of the 35 holes put down nearly all were in ore. A picturesque method of drilling was resorted to in the winter, the drill being placed on the ice of the lake.

In section 22, township 47, range 23 owned by Patrick Hammel and others and known as the Hunter property and leased to the John T. Jones interests, a shaft is being put down.

Nine holes are down in ore in section 27, township 47, range 29 where the property owned by William Rock, John Nolan, John J. McLaughlin, Patrick Hammel, G. Milostin, J. P. Holihan, Mike Nokles and Dr. Sykora is being drilled.

Erick Kronberg has sold to Edward Crust of Brainerd an undivided 1-8 interest in the northwest 1/4 of the southwest 1/4 of section 20, township 45, range 30. Sarah A. Bowers has sold to Annie W. Harrison and others the north 1/2 of the northeast 1/4 and the northeast 1/4 of the northwest 1/4 of section 26, township 44, range 28 for \$1,478.50. Abner Brotherton has sold to Henry B. Blackwood an undivided 1-8 interest in the southwest 1/4 of the southeast 1/4 of section 19, township 46, range 28.

Hopeless.

A woman went to the police station to inquire about her missing husband. "What is his distinguishing feature?" asked the superintendent. "A large Roman nose," she answered. "Then he won't be found," emphatically exclaimed a policeman, "for a nose of that kind never turns up."—Pearson's Weekly.

COLLEGE OF ST. THOMAS

St. Paul, Minnesota, July 17, 1913.

Dear Mr. Millard: Have been so busy of late that I did not find time to answer your two welcome letters. I am taking your advice about studying English. It is helping me a great deal.

Have been working at stenographer and bookkeeper for the College of St. Thomas since leaving school last spring. They pay me \$65 a month, which you can see is very good for one who has never had any high school training, and only out of college a few months. I am glad I took a long course with you. It has put me where I am now and this is only the beginning.

I hope you are enjoying your vacation and that the old school will continue to turn out students who can face the old world and with a smile say, "The world owes me nothing; I'll win it for myself." I am one of them and am proud to say it is due to the Little Falls Business College.

Yours for \$usse\$.
